Subject: Closed facilities

I'm sending you copies of site visit reports that Clint Sperry, EPA Region 7 Inspector, completed for the following three facilities:

MOD985806991 Fiberglass Parts Unlimited Inc 3320 K So Outer Rd E, Grain Valley, MO 64029

MOR000008300 Bristol Steel 3117 Big Bend Blvd Maplewood, MO 63143

MOD031105406 Kerr-McGee Refinery/Triangle Refiners Inc.
4000 Koch Rd (S Lindbergh & Koch Hospital Rd), Mehlville, MO

Clint indicates that all three of these facilities were closed when he visited them in Feb/March 99, yet according to RCRIS they are still in operation and actively generating large quantities.

This information should be entered as an E-source record, with the date of the site visit as the date of change.

Please update RCRIS. Thanks.
